THE MAYOR OF HOOPESTON. In the Toils of the U.S. Court Charged with Selling Whisky.

Springfield News.

Deputy Marshal Hobart yesterday returned from Hoopeston, Vermilion county with Drs. Wm. R. Pierce and Thomas C. McCaughey in custody. They are charged with violating the internal revenue laws. Dr. Pierce is the mayor of Hoopeston, taving been elected to that office last spring on the Prohibition ticket. The deputy went up after him Saturday night, but as the doctor is superintendent of a Sunday school, the deputy kindly waited until Monday morning to start for Springfield. It morning to start for Springfield. It seems that Hoopeston has a young men's club, and the doctor being a pious man, objected to the youth of the city locking themselves in with the medium of the city locking objected to the yound of the city locking themselves in private apartments and enjoying their social drink and game of cards. So to break up the evil he cut a hole in the well of their club room and posted a detective there, and as a result the hole many agreefed. posted a detective there, and as a result the boys were arrested and had to pay considerable money for their fun. The youngsters thought that on the principle that "one good turn deserves another" they would stop another eril. Several of them, so it is said, knew by experience that the pious doctor had violated the United States laws by selling them liquor, therefore they turned in and helped him rid the town of wickedness by having him arrested by Uncle San's migions.

Dr. Pierce says that he has been makor, there says that he has been masing a hard fight against the gamblers of of the city and that his arrest is a piece of malicious prosecution. Dr. Pierce was once a member of the legislature and is well known in southern Illinois.

It Has Stood the Test.

A great many people fancy that cough cure cannot have any effect upon the kidneys. This is an error. A cold, when it settles upon the kidneys, can be as easily cured by Reid's German Cough and Kidney Cure as when it is seated upon the lungs; nor does the patient have to wait long to ascertain the result. The effect is immediate, and relief is obtained from one or two doses. The test timony upon this point comes from so many sources that it cannot be disputed. Some of these ci. se are extraordinary, and show that kidney trouble of years' standing has been entirely relieve by a few bottles of Reid's German Cough and Kidney Cure. Kidney trouble that comes from a strain cannot be relieved except by rest and time; nor can diabetes be cured except by dieting, living upon skimmed mik, cabbage, gluten bread, and carefully avoiding all starchy foods and sugar. When a patient has this malady it is hardly a question of curing him, ninety-nine cases out of an hundred the malady comes from a cold. If neglected, it will lead to serious. results; if attended to by taking Raid's German Cough and Kidney Cure, the sufferer is at once restored to health. The time to attend to these matters is when the difficulty first makes its appearance. After the disease is scated it is much harder to make headway against it. For this reason

Fair Elections.

The Republican party, in its National platform of 1888, declares unreservedly that the party is in favor of the supreme and sovereign right of every lawful citiz-n, whether white or black, to cast one free ballot in public elections and to side-track it will sooner or later find have that ballot driv counted. It de himself knocking at the doors of the clures this right to be the foundation of Democratic harem for admission. our Republican government, and de mands effective legislation to secure the integrity and purity of elections. The sau e platform charges that the Cleveiand administration and the majority then in Congress, owe their existence to the suppression of the ballot by a crimi and Laibtigation of the constitution and aws of the United States. In obscience to this pledge and the

conditions alleged, the Republicans in Congress are at this time attempting the passage of a Federal election bill looking toward the prevention of election fraude wherever they are likely to occur.

It goes without saying, that to this proposition the Democratic party, from ds cluc' bing down to the lowest ward buanner, is epposed; not on account o any constitutional objection, for the constitution too clearly defines the power o the government in this respect; not that we now have fair elections, by which the far consent of the people is secured in elections, but its opposition is torsed or other grounds. First, it is claimed that it will be too expensive; second, that we have gotten along without it for one hundred years, and third, that it is partison and would disturb the present satisfactory condition of suffrage in the South as d bring on a race war.

When summed up, these reasons simply resolve themselves into the fact that the Democratic party opposes any law of the kind because they know that with a fair election in the South, the Democratic party would stand no more show to carry the country in a National election than it does to carry the state of Pennsyrvania in a state election.

No fair and sonsible man now denies the suppression of the colored vote in Lar South: in fact southern men freely count it. Henry Watterson says: * I should be eath red to no respect or credit a

It is the red rag to them. not been some man or men who asen had that relation to the party. For yours preceding the organization of the Republican party this country was ruled by a slave-holding oligarchy in the South assisted by what was at that time known in the political vocabulary of the day as northern doughtaces. The Republican party was organized by men who had the courage to say to the dictators of that day: "Thou shalt go no further." In its in Congress w regularly once or twice organization it became the only political party that ever had the courage to assert the rights of the people of the North and currency based upon seventy cent dol-lars. It is wholly disgraceful and shame-ful that these renegades should tarnish to tell the South of its mistakes. It is the only party to-day that has the courage and honesty to do that. 1860 the oligarchy kicked the doughface out without ceremony and proceeded to set up business for itself in shape of a Confedersey. The Republican party, being in power, became responsible for the preservation of the Union Its would-be conservators at once began to appear. Horace Greeley was the first man who assumed to be wiser than his party and claimed that there was no power under the Constitution to coerce the South and advised that they be allowed to depart in peace. The party with becoming digmay rejected his opinion. During the war he advocated a cessation of hostilities at arranged for certain so-called Con-

orate embassadors then in Canada to with our government. This too ected. In 1834 would-be conservthe party resolved that Mr. hould not be the party's can-- President and nominated remont for the purpose e party to its opinion, rejected with thanks, JATUR, HALENCY THE 51ST CONGRESS.

FENATE. WASHINGTON, July 1.—The Senate this morning passed senate bill to authorize the leasing of school lands in Oklahoma.

Mr. Plumb explained the bill. The leases are not to be for a longer period than five years, and the necessity for the bill arises out of the fact that homest aders have settled unear those lands not knowing that they out of the fact that homest aders have set-tled upon these lands not knowing that they were school lands, and that special agents from the General Lind-cilice have been serving notice on the sctilers to remove from the lands immediately.

The Thurman Club of Columbus in black silk hats, light brown cape overcoats and presenting a natty appearance, came in on a late train and were assigned the post of honor to escort the visiting Governors. They carried a magnificent Thurman banner. The Hendricks Association of St. Louis arrived as the parade was

forming, and was given a posi-tion at the head of the fifth division. A magnificent wreath of jack roses four feet in diameter in General Sickles' carriage in the parade attracted considerable attention. It was a tribute from Tammany Hall, and was laid by the General at the foot of the monument when the exercises were about to begin.

The sidewalks along the line of march

were packed with people, who heartily cheered the visiting Governors, the political clubs from abroad and the other features of the parado that excited their enthusiasm. Each division had Its band of music, and the numberless flags, banners and other devices that were carried tended to complete a magnificent spectacle.

The appearance of the carriage with Mrs. Hendricks and the visiting Governors was the signal for the firing of a salute of

Hovey called the gathering to order in very few words, extending a hearty welcome to the visitors from abroad, and paying a brief tribute to the memory of the man they had met to honor. He concluded by installing Hon. Frederick Rand, president of the Monument Association, as

nine guns by the Light Artillery Bat-

tory, and the exercises were forthwith

presiding officer. The latter, in turn, introduced Rev. Joseph S. Jenckes, of St. Paul's Church, who led the gathering in prayer. After the prayer an additional number was added to the programme by the introduction of General Daniel E. Sickels, of New York. Judge Holman, bear ing a magnificent wreath of roses over three feet in diameter, preceeded the crippled veteran. General Sickels said that he had been commissioned by the most ancient political organization in America to bring this wreath and place it on the tomb of Hendricks in the thirty years ago he had been the envoy of the same society to offer a similar tribute to the memory of Daniel Webster. General Sickels eulogized the works of Hendricks and in concluding, asked Mrs. Hendricks to accept the

wreath as a token of esteem and admi-

ration for her illustrious husband who

Mrs. Hendricks accepted the wroath and bowed her thanks while the specta tors cheered.

After a selection by the liendricks Club Band, President Rand made succinct historical statemen narrating the circumstances under which the movement for the monument had originated, the amounts contributed by the several States, and the total ox penditure. The hymn "America" was then sung

by the chorus and audience. As the last notes died away Mrs. Hendricks arose and gently pulled the rope, causing the canvas to recede and disclosing the heroic-sized statue that crowned the pedestal. Applause, loud and long, greeted the

ect, while to add to the din, a salute of nine guns, one for each letter of the name "Hendricks" was fired by the bat tory, and "Columbia" was rendered by the combined bands. When silence had once more been restored the dedicatory ode "Hendricks," written by Jame Whitcomb Riley, was impressively read by Prof. Fisher, of Hamover College.

BUILDING THE SEWERS.

Going Ahead Rapidly,

Contractor Hunt is making rapid progress in pushing shead with the work of Hamsher and Fields recently graduated building the sewer on Broadway. He in instrumental music from this school has 40 men at work to-day. The excava-144 EAST MAIN ST. tion starts at the south line of East Prairie street and the five-foot sewer will empty into the branch under the culvert. The walls of the sewer are nine inches thick and the masons make the arch over wooden curve, which is taken out and moved shead as the brick arch is completed. At present the trench is dug 15 feet deep. It is 7 feet wide at the top. In places the sewer will be 20 and 25 feet deep. Then the sewer digging machinery—a system of buckets—will be used. The machinery has arrived from Boston, but until the engine comes from New York, the apparatus cannot be used. The excavation thus far has extended aorth on Broadway nearly as far as William street. The Broadway sewer will go as far north as Sangamon street, two blocks north of the Wabash railway-Then it extends east and west and goes northward in two branches to the limits.

HIGH WHEELS WON.

The 12-Mile Bicycle Race at the Trotting Park.

There was a somewhat exciting bicycle race at the half mile race track of the Decatur Trotting Association last even ing, witnessed by a large crowd of ladies and gentlemen. The admission at the gate was 10 cents, and the receipts were \$17.15. The starters of the race were F. B. Mueller and O. Ewing; timer, B. J Shockiey; judges, F. L. Stevenson and John Young. There were nine entries as follows: Silas Long, W. A. Hise, Frank Dodd, D. A. Stevens, John Spalding, Ed. Johnson, C. M. Washam, Wm. Mathews and Percy Ewing. Each contestant had to go around the half mile track twentyfour times to make the 12 miles and get a place. The start was made from the scratch at the sound of the bicycle alarm, and away the nine competitors went, pumping for speed and time. The

finish was as follows: hinish Was as follows:

First-Silas Long, 12 miles; time, 49, 40%,
Second-W. A. Hise, 12 miles; time, 49, 40%,

An Old Church,

There is an old church near Harrisburg Pa., which has become on account of its age an old landmark. It is known as Paxton Church and was built of logs in 1716. In 1740 the log church was taken down and replaced by one built of stone. The first minister was Rev. Wm. Bertram and the second one was Rev. J. Elder who preached there fifty two years When it was first built, and for years afterwards, worshipers carried their rilles with them to church to be used in case of an attack by the Indians. This church is now used by the Presbyterians who have but new wood-work on the inside, a new gallery for the choir and modern seats instead of the old pews with doors.

"Col. Bob" Gorham Dead, Robert Gorham, for the past 12 years messenger at the executive office at the state house, died at Springfield Monday. He had a more extensive acquaintance than any other colored man in the state, and has always been faithful and combe tent and a favorite with the officials. His wife died a few weeks since and a large family of children are left orphans.

She Comes High,

Miss Clementia DeVere, soprano in Dr. Paxton's church, New York City, received \$4,500 a year for her services, or \$112.50 each Sunday. This is said to be the highest salary ever paid to a choir singer either in this country or Europe,

WHAT TO DO WITH HANDS.

Here Is a New Way of Learning How to "Few people are thoroughly at ease about the disposition of their hands in company," said a teacher of the art of "And yet there is a very simple thing that may be done to get rid of that disagreeable consciousness of the members which give rise to the difficulty. You see, the hands are far more highly educated in this age of mechanical civilization than they have ever been before. It may almost be said that the brain has found its way to the ends of the fingersthat these extremeties have come to pos-sess an inherent intelligence. For this reason the attention is so fixed by habit

npon the hands that they feel awkward, just as any other part of the body will do if you think particularly about it.

"You have only to fix your attention on your little toe in order to have it become within a minute positively painfal. It has often occurred to me that those monks of the Middle Ages who devoted their minds devoutly to the steadfast contemplation of their stomachs, for the purpose of bringing on a trance condition, must have felt a grievous need

of Jamaica ginger.
"So, in order to be graceful in the disosal of your hands, it is only necessary to get rid of consciousness about them, and you may accomplish this to a sur-msing extent by a very simple gymnasic process. Let them hang limply and wring them as violently as possible for five minutes, say. This will render them unconscious to a great extent, so that you will not be disturbed for some time after by the excess of feeling in them. Consequently, while the effect lasts, you will find yourself at ease about your hands and will have no trouble about

"You will be astonished, if you try it, to find how admirably it works. I have recommended it to hundreds of people, and they have uniformly found it suc-cessful. Do it once every day for a month and you will discover that, by the mere practice of the habit, your em-barrassment in this regard has been greatly diminished. The time to perform the operation, obviously, is just before you enter a room full of company, though it will not do very well to be found wringing your hands in the vestibule of a house to which you have been invited, or engaged in what may appear to be a frantic exhibition of grief in the reception room,"---Washington Post.

A Relie of Territorial Days. When Noah McNaught was at Hamilton he was shown a wagon wheel which was found buried high up on the moun-tain side and covered with two feet of earth. From appearances it had been there sixty years. The tire was wide, the spokes were rotted off at the point of intersection with the felloes. The hab and felloes were tolerably well preerved. The root of a tree as large as a man's body had grown through and broken out three spokes. There was no mark in the dense forest indicating that a wagon, road/had ever existed in that neighborhood. In accounting for how this wheel could ever have gotten there, an Indian tradition recites that a government party took its wagons to pieces and packed them on the backs of mules, that one mule bearing this wheel on its back was precipitated from the mountain side and killed by the fall, leaving the wheel to be covered by the earth as the surface of the mountain became invaded. — Washington Farmer.

Sugar from Sorghum. In a report, issued by the British govanment is a document from the English consulat Chicage, which states the pos-itive opinion of the author that sugar making from sorghum is now an estab hshed fact, and he believes that it will double the value to the American farmer of his corn lands. He is satisfied that necessiter there will be no difficulty of tting from 7.1-2 tons of cane 750 ands of sugar and 1,000 pounds of taolasses and 900 pounds of seed—the whole valued at over \$50. This is double what the same area of wheat or Indian orn would produce. In some states— Kansas, for instance—the consul believes this industry will all a six-fold value to the term lands. When it is renembered that but a few years ago the ttempt was almost abundoned by the evernment as hopeless, such a report rougarything but a favorable source is ery encouraging.—New Orleans Pica-

Variety in the Color of Eggs. It may be taken as a general rule that he eggs of most birds vary more or less is regards size, shape and coloring, Guillemots' eggs vary in ground color from grayish white to grass green. The eggs of the red grouse, the rock and the lover also vary to a great extent, both n color and marking. It sometimes hapens that birds whose eggs are usually eight and artistically colored will lay are white ones, and instances of this in the case of the yellow hammer have come under the notice of the writer. House sparrows' eggs have likewise been taken quite destitute of coloring, while blackards' eggs have been found of a blackish lme. - Hardwicke's.

A Carious Ailment.

A curious connection between the color and the anditory sense has been observed by Dr. Albertine. He has discovered that persons suffering from daltonism, that is, color blindness to certain hues, have a corresponding deafness to certain musical notes. Special instances are given. For example, a person not having the sensation of red cannot distinguish the note sol, a person blind to green cannot recognize re, nor can the notes be produced by the voice.—Phila-

Pacouraging Literature. Andrew Carnegie has given to the Au-thors club, of New York, the sum of \$10,000 to be used in the encouragement of Interature. The first application for any portion of it came from a young man who wanted to buy paper and pencils to write a five cent Indian novel —Detroit

The "STANDARD" SEWING MACHINE.

ing machine.

The world's ablest veterans in sewing machine invention and manufacturing are at the head of the "STANDARD" Sewing Machine Company, Keep up with the times, and get the best. It will pay you better to but the "STANDARD" than to receive one of the old style machines as a crift. The rotary principle appried to the sewing machine is as great, in improvement as the hand saw is to the old fashioned up saw.
